Training Requirements

Lab Safety - required for all personnel working in a laboratory. Must attend one live class.

Hazardous Waste - annual requirement for all laboratory personnel who generate hazardous waste. Must attend one live class then take annual refresher on-line.

Biosafety - annual requirement for all personnel in a Biosafety Level 2 laboratory.

Bloodborne Pathogens - annual requirement for all personnel working with human materials such as human blood, body fluids, unfixed tissue or human cell lines (included in Biosafety training).

Radiation Safety Training - required for all personnel working with x-ray machines, laser equipment and radioisotopes. Take on-line training then call 777-5269 to schedule the test
